Re: Elementary Assembly/Workshop

Dear Julie,

Thank you for supporting our school and students by visiting our fourth and fifth graders earlier this month. The Elementary Teen Esteem Assembly was perfect! The humor that was woven throughout the entire program was highly engaging and well-liked by our students. Getting students to laugh like this as a strategy to help them learn an important topic worked very well for this age group. After the assembly, I had many students approach me and tell me that it was the best assembly that they had ever had. Others told me that they hoped that Teen Esteem would be back at Creekside in the future!

The social/emotional areas covered by the elementary assembly are critically important educational topics for this age group. The work that the presenter did with students around learning how to recognize and prevent cyberbullying as well as identifying the dangers of prescription drug abuse is increasingly important. Additionally, the information was timely as elementary students hopefully have yet to encounter either of these in their own lives. By educating our children in advance of these potential pitfalls, we hopefully are equipping them with information and strategies that can help them navigate challenging situations that they may face in the future.

I cannot thank you enough for supporting our school and our students' learning. I highly recommend this program to other elementary schools wanting support with education around these important topics in our community.

Sincerely,  
Aaron Tarzian, Principal  
Creekside Elementary School
